

# **Hopes for Chapter**

We hope to deepen our relationship with God through the contemplative process so as to transform our encounters with one another and our response to the needs of the world

## **Prayer and Contemplation**

That Chapter be a holy dwelling place of God, focusing on the Divine, so as to provide opportunities for meaningful experiences in prayer, listening and action

# **Community Life**

That Chapter encounters awaken and inspire a deeper commitment, individually and congregationally, to our call as IHMs and foster co-responsibility for creating vitality in our local communities

## **Mission**

That recognizing our present realities, we continue to respond to the needs of the world, exploring possibilities for collaboration.
